

# BIOTECH • SANITARY • FOOD PULSATION DAMPENERS & SURGE SUPPRESSORS

Manufactured by:

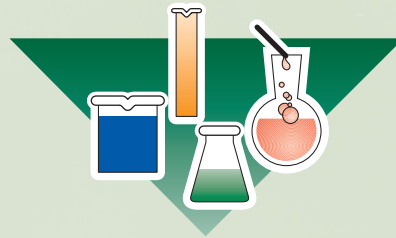

**BLACOH**  
FLUID CONTROL

## SOLVE

- PUMP DISCHARGE PULSATION
- SHAKING PIPES
- SPLASHING
- PRODUCT DEGRADATION
- INACCURATE FLUID METERING

## FEATURES

- Capacities from 4 cubic inches to 5 Gallons
- Custom models
- Polished and Bead Blasted 316L Stainless Steel surfaces
- Tri-Clamp inlets
- Autoclave safe wetted parts
- Pressure ratings to 80 PSI
- FDA Compliant Materials

**THE**  
**BLACOH**  
 FLUID CONTROL

**FAMILY OF PRODUCTS**

**PULSATION DAMPENERS, SURGE SUPPRESSORS,  
 INLET STABILIZERS, ACCUMULATORS**

Take the shock out of fluid flow in industrial and chemical transfer applications. SENTRY protects pipes, valves, fittings and sensitive equipment from vibration and fatigue. Pumps and components last longer and perform more efficiently. Avoid pipe breakage and hose abrasion, insure accuracy of in-line meters, reduce product agitation, protect filter presses and remove "water hammer" with pulsation protection. SENTRY is available in several chemical resistant plastics and metals.

**SPILL PREVENTION / CONTAINMENT**

Prevent hazardous and costly spills from failed diaphragms in air operated diaphragm pump systems by capturing the expelled/leaked liquid, automatically shutting off the failed ump and turning on the backup. *U.S. PATENT #5,501,577*

**GAUGE GUARD / DIAPHRAGM SEAL**

Isolate gauges, pressure and vacuum instruments from contamination or corrosion from the process fluid. Blacoh's Sentinel Gauge Guards allow for accurate and consistent gauge and instrument readings. Economical, strong and durable.
