

# DataKeep™ 300500

Explosion Proof Level Indicator

## Application

The explosion proof loop powered level indicator displays engineering units connected in series with one 4-20 mA continuous level transmitter. Select this level indicator for hazardous applications with an explosion proof level sensor. The windowed field enclosure is easily wall mounted and includes two conduit connectors.

## Features

- Rugged aluminum explosion proof windowed enclosure
- LCD display indicates engineering units and descriptors
- Non-volatile memory with security password protection
- SafeTouch through-glass button programming
- 32-point, square root or exponential linearization

## Key Benefits

- Simple, loop powered display for use in explosion proof applications
- Add display to current loop in the classified area
- Displays in inches, feet, meters, gallons or liters of liquid in the tank
- Easy to configure and scale for your application
- Provides Hi or Lo level alarm indication

## Compatible Products

XP88-89

### ECHOSAFE®

Ultrasonic Level Transmitter

FM approved for hazardous environments, the explosion proof ultrasonic level transmitter provides continuous level measurement up to 32.8' (10m) with a 4-20 mA signal output, and is configured via the integral push button display module. This non-contact liquid level sensor is ideally suited for corrosive, ultrapure, sticky or dirty liquids, and is selected for bulk storage, day tank and process tank level applications located in a classified area.
